ConocoPhillips

Last week at the meeting, Bill Tyson, along with his boss John, met with us to discuss the Energy Situation.

WHO WE ARE

ConocoPhillips uses its pioneering spirit to responsibly deliver energy to the world. This purpose transcends all of ConocoPhillips' operations. The company conducts its business to return maximum value to shareholders while utilizing a wealth of knowledge and resources from its employees and acting responsibly in all communities in which it operates.

As the third-largest integrated energy company in the United States, based on market capitalization, oil and natural

gas reserves, the company understands its responsibility to deliver energy in a safe, environmentally and socially responsible manner. The company upholds this responsibility in its worldwide operations, where it is the fifth-largest refiner and the sixth-largest reserves holder of nongovernment-controlled companies. ConocoPhillips is known worldwide for its technological expertise in reservoir management and exploration, 3-D Seismic technology, high-grade petroleum coke upgrading and sulfur removal.

Approximately 32,500 ConocoPhillips employees work worldwide to consistently deliver top performance and value and to maintain the company's global market position. Employees' individual talents and strengths combine to create a diverse and resilient workforce within ConocoPhillips.

With operations in nearly 40 countries, ConocoPhillips is committed to contributing to social, economic and environmental improvements in all the communities in which it operates. The company is currently funding numerous environmental, social, health and education programs around the world.
